

Did You Also Know iMotion Has...

iMotion is a manufacturer's representative serving the OEM motion control industry in the Rocky Mountain Region. With over 65 years of experience in this area, we have been able to assemble the premier manufacturers of motion control products and have the knowledge and experience to help you apply those products in a manner that will maximize your opportunity for success in your design effort. It is our intention to remain focused on the OEM motion control market, while serving the users and integrators by giving factory support to local distributors.

New Technologies

Integral V™ Linear Guides: Precision embedded steel raceway. Application flexibility, reduced cost & application time.

Bearings: Self-Lubricating • Rolling Element • Linear Guides & Rails • Linear Actuators • Slides • Modular Guides & Systems • Stages

Motion Controllers: Single & Multi Axis • Bus-Based & Stand Alone • Microprocessor-Based

RIO (Pocket PLC): Low cost compact PLC with 16 analog I/O and 32 digital I/O

Amplifiers: Brushed • Brushless • Digital • Analog • Sinusoidal • Trapezoidal

Industrial HMI's: Panel PCs up to 17" • Graphic Touchscreens 4" to 15" • Text-based OITs

Offshore Capabilities

Motors: High Volume Motion Control • Products & Assemblies • Fans

General Purpose AC/DC Power Supplies: Desktop • Medical • DIN Rail • Modular/Configurable • Chassis Mount • LED Sign • Sine Wave

Contract Manufacturing: Develop and Fabricate complete Process for Electrical Mechanical Assembly • CM Services • High Precision Low Cost World Class Machining Centers

Mechanical Products

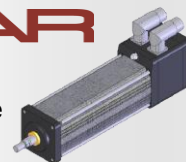

Couplings: Zero Backlash • Low Inertia • Line Shafting • Torque Limiters

Computer System Design & Manufacturing: Frictionless Tables & Slides **Bearings:** Roller, Ball & Needle • Ball Bushings & Shafts **Monorail Guideways:** Ball & Roller • Ballscrews **Linear Encoders**

Actuators: Linear • Rotary • High Force & Precision

Tritex: Offers integrated actuator, amplifier and control in compact package
