**CICOIL**®  
The Clear Choice

Cicoil has a proud history of innovation and continues to design and manufacture the highest quality products, with fast, responsive lead times for our customers. Their efforts have earned numerous customer and industry awards for quality, delivery, and continuous improvement.

## When Space is Tight...Go Flat!

Flat cables occupy just 50% the space of comparable round cables. For dense packaging, flat cables are the most space-efficient solution. Cicoil Flat Cable, with its thin profile and extreme flexibility is the ideal choice where space is tight.

- **One Cable for Everything:** Combine power, signal and tubing into a single flat cable
- **Standard or Custom:** A wide variety of standard cables are available, and the Cicoil engineers can design a custom cable solution for any requirement or industry.
- **Design Your Own:** Our Online Configurator lets you design virtually any flat cable in minutes! You get an immediate drawing and it can be
