

## Invertek Joins iMotion Linecard

Invertek Drives is dedicated to the design and manufacture of sophisticated Variable Frequency Drives, used to control motors in a wide variety of industrial and energy saving applications.

### OptiDrive E3

Focused on ease of use, Optidrive E3 provides incomparable simplicity of installation, connection and commissioning, allowing the user to benefit from precise motor control and energy savings within minutes.

#### Key Features

- Internal Category C1 EMC filter
- Internal PI control
- Internal brake chopper
- Dual analogue inputs
- Operates up to 50°
- Bluetooth connectivity
- Option for control of single phase motors

### AC Drives for Fan & Pump Control

Optidrive Eco Variable Frequency Drives provide efficient, reliable and quiet control of motors for HVAC and pumping applications. Designed to provide maximum operating efficiency while also minimizing environmental impact, Optidrive Eco offers unrivalled performance and flexibility.

### OptiDrive Single Phase Input / Output

Designed to be cost effective and easy to use, the Optidrive E3 for Single Phase Motors is for use with PSC (Permanent Split Capacitor) or Shaded-Pole Single Phase Induction Motors.
