MOVING TECHNOLOGY

iMotion represents SCHNEEBERGER® serving original equipment manufacturers operating (OEM) in a wide variety of industries. SCHNEEBERGER® provides pioneering innovations in high precision linear motion technology.

## SCHNEEBERGER

Product availability is a current struggle for manufacturers everywhere. It seems that lead times continue to get longer and back orders more common, but customer's needs are only becoming more urgent. SCHNEEBERGER carries their standard HIGH QUALITY, HIGH PRECISION products in stock and can provide you with the components for your applications quickly.

### Monorail MR 4S - Next Carriage Generation

4 reasons to love the new SCHNEEBERGER MONORAIL MR 4S series: An optimized lubrication system, ease of maintenance, shock resistant, and dirt repellent

**Serviceability** – compatibility, exchange of cross wipers

**Supply of lubricant** – pressure-tight lubrication channels

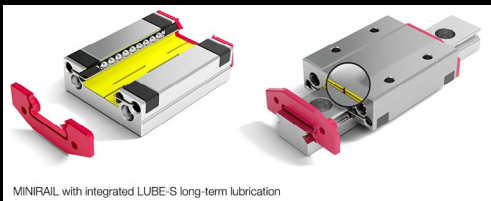

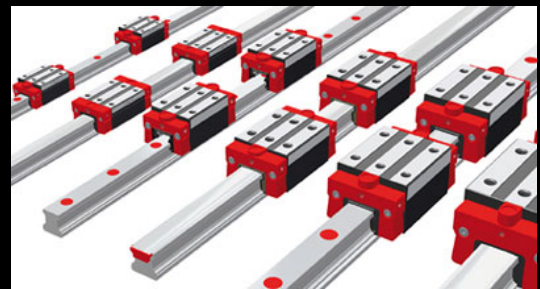

**Shock resistance** – body optimized for rigidity

**Sturdiness** – robust and well-secured front plates

### High Accuracy Even In the Tightest Spaces

The high-precision MINIRAIL miniature guideway from SCHNEEBERGER is small in size, but large in terms of its possibilities. MINIRAIL is a high-tech linear bearing that will impress you with its precision, robustness and versatility. Expandable if required with an integral measuring system and long-term lubrication.

MINIRAIL with integrated LUBE-S long-term lubrication

### Integrated Long-Term Lubrication

As another option, SCHNEEBERGER also offers the integrated long-term lubrication LUBE-S for the MINIRAIL. This ensures long-lasting, uninterrupted and safe operation. The associated freedom from most maintenance has a favorable impact on maintenance costs. Of course, LUBE-S guarantees the full performance range of MINIRAIL, with direct, metered lubrication at every installation orientation.
